

Nicholas Russo

nijaru7@gmail.com | github.com/nijaru | nijaru.com

Skills

Languages: Python, Go, Rust, C, C++, JavaScript

Backend/APIs: FastAPI, Flask, Django, Ruby on Rails, gRPC

Infrastructure: Docker, Linux (Fedora, Ubuntu, RHEL/CentOS, CoreOS, Gentoo), AWS, GCP, DigitalOcean, Cloudflare

Databases: PostgreSQL, SQLite, MySQL, Redis, ChromaDB, DuckDB

Tools: Git, GitHub Actions, Zed, Ghostty, Fish

Projects

seerdb | github.com/omendb/seerdb | *Rust, Storage Engine, Database Systems*

- LSM storage engine with ALEX learned indexes and WiscKey key-value separation. 2.5x faster writes, 2x faster reads, and 5x lower write amplification vs RocksDB

OmenDB | github.com/omendb/omendb | *Rust, Python, Vector Database*

- Embedded vector database with Python bindings, persistent storage, and filtered search

Pacabot | *Python, LangGraph, AI/ML, Finance*

- AI trading bot using LangGraph multi-agent system. Aggregates 13 data sources including market data, SEC filings, news, and social sentiment

Aircher | github.com/nijaru/aircher | *Python, LangGraph, AI/ML*

- AI coding agent using LangGraph multi-agent orchestration. Maintains codebase context and task history across sessions. ACP protocol support

hygrep | github.com/nijaru/hygrep | *Python, AI/ML*

- Semantic code search with automatic local indexing. Tree-sitter syntax extraction with local embeddings. Supports 22+ languages

Experience

Software Engineer

January 2021 - May 2023

Omnicore, Inc.

- Reduced test suite runtime by 90% (45 min to 5 min) by reducing syscall overhead in filesystem operations
- Built Python backend API and gRPC integrations for distributed services
- Developed regression testing infrastructure in Go and Python

Awards

2nd Place & Ingenico Winner, Money 20/20 Las Vegas 2016 | *Team Kairos*

- Developed cross-terminal payment application with REST API for business partnerships. Built with Go and PostgreSQL, deployed on CoreOS

Education

42 Silicon Valley

2018 - 2020

Computer Science

Fremont, CA

Las Positas College

2014 - 2015, 2016 - 2018

Computer Science

Livermore, CA

- Computer Science Club President 2016 - 2017

Dev Bootcamp

March 2016 - May 2016

Web Development

San Francisco, CA
